Place: SyDE lecture room, Physics building 8F, Graduate School of Science

3. 担当者：磯野 航 (理学研究科 博士課程 1 年)、Sophia (Graduate School of Economics and Management)

Chairperson: Ko Isono (Graduate School of Science), Sophia (Graduate School of Economics and Management)

- 内容

磯野 航

概要：今月の定例会議の内容は、清水康弘先生による講演とそれについてのグループディスカッションでした。

講演のテーマは「原子力発電所をめぐる状況変化」でした。

講演は福島第一原子力発電所の事故の詳細、報告書やこの 10 年の変化の解説、それを踏まえた上での原子力政策についてのもので非常に興味深かったです。

講演のあとは 6 つの班に別れてグループディスカッションを行いました。各班には以下の 4 つのうちいずれかのテーマが与えられました。

1. 原発事故後 12 年で変わったこと
2. 福島の処理土壌を受け入れるか？
3. 政府の原発推進の方針転換をどう評価するか？
4. 福島第一原発からの ALPS 処理水の放出をどう評価するか？

各班ともに、活発な議論がかわされました。最後にディスカッションの成果を各班が短く発表し合い、互いの知見を交換しました。

Summary:

The June monthly meeting for SyDE with Isono-San was successfully organized with effective communication and collaboration. The following details outline the key activities and outcomes of the meeting.

1. Pre-meeting Preparation:

- Initial contact: Communication commenced between me and Isono-San via email to discuss the meeting requirements.
- Attendance list: Shiraishi-Sensei provided the attendance list, which was shared with Isono-San for review and removal of absentees.
- Group division: Upon receiving the revised attendance list from Isono-San, I divided the participants into six groups.
- Grouping confirmation: The final grouping list was shared with Isono-San for verification before being forwarded to Shiraishi-Sensei.

2. Meeting Execution:

- First section: Due to limited prior interaction, I was unable to recognize Isono-San during the initial part of the meeting. Consequently, Isono-San took the lead and efficiently hosted the meeting by assigning questions to each group.
- Second section: As familiarity grew, I recognized Isono-San and proactively offered assistance in hosting the meeting. We coordinated efforts to conduct the meeting smoothly.
- Question and answer session: With six groups and three questions to address, Isono-San facilitated the discussion in Japanese, while I participated by posing the questions to each group in English.
- Overall organization: Despite initial nervousness, I believe we successfully coordinated the meeting, resulting in a productive and engaging session.

In conclusion, the June monthly meeting for SyDE with Isono-San was effectively organized, demonstrating effective communication and collaboration. Despite initial challenges, we tried our best to ensure a successful meeting. The experience provided valuable insights and learning opportunities for future endeavors, enabling personal growth and learning.
